

AMAFEST 2026

The aim of the festival is to create an international / European platform for non-professional theater ensembles from Europe to meet in order to gain new experiences, build networks and promote the exchange of theater experiences between different cultures. It is intended to enable encounters and exchanges between national and international theater groups, with the aim of picking up on new trends in social development and shaping the future creatively. At the same time, the goal is to create a dialogue and exchange of knowledge between the participants – both actors and audience. All participants are encouraged to perform in their national language. Before each performance, the audience receives a brief introduction to the content of the piece. Theater performances, workshops, discussions and accompanying cultural programs are planned.

The festival is organised by [Theater am Olgaek](#) and THAG THEATER.
